NEUROBEHAVIORAL TOXICOLOGY AND TERATOLOGY

VOLUME 6 NUMBER 1 JANUARY/FEBRUARY 1984

CONTENTS

COMMENTARIES

Screening drugs for effects on sexual differentiation.
KENYON, P. and V. MALINEK 1

Opioids and development: A perspective on experimental models and methods.
LICHTBLAU, L. and S. B. SPARBER 3

ARTICLES

Sex differences in taste aversion learning: An analysis of the minimal effective dose.
DECANAY, R. J., J. P. MASTROPAOLO, D. A. OLIN and A. L. RILEY 9

Effects of maternal social drinking and smoking on offspring at 13 months.
GUSELLA, J. L. and P. A. FRIED 13

Acute ethanol administration during pregnancy: Effects on central dopaminergic transmission in rat offspring.
LUCCHI, L., V. COVELLI, P. F. SPANO and M. TRABUCCHI 19

Temporal changes in repeated acquisition behavior after carbon monoxide exposure.
SCHROT, J., J. R. THOMAS and R. F. ROBERTSON 23

Effects of Δ^9-THC on pregnancy and offspring in rats.
ABEL, E. L. 29

Conditioned taste aversion induced by toluene administration in rats.
MIYAGAWA, M., T. HONMA, M. SATO and H. HASEGAWA 33

Prolonged exposure to trimethylphosphate induces sensory motor neuropathy in the dog.
SCHAEPPI, U., G. KRINKE and W. KOBEL 39

Evaluation of the toxic effects of aflatoxin B_1 with a taste aversion paradigm in rats.
RAPPOLD, V. A., J. H. PORTER and G. C. LLEWELLYN 51

Quantitative measures of mature neuronal morphology after in utero ethanol exposure.
PENTNEY, R. J., J. R. COTTER and E. L. ABEL 59

Evaluation of neonatal chlordecone neurotoxicity during early development: Initial characterization.
MACTUTUS, C. F., K. L. UNGER and H. A. TILSON 67

Neonatal chlordecone exposure impairs early learning and retention of active avoidance in the rat.
MACTUTUS, C. F. and H. A. TILSON 75

Contents continued

Acute and chronic caffeine exposure effects on play fighting in the juvenile rat.
HOLLOWAY, W. R., JR. and D. H. THOR 85

ANNOUNCEMENTS 93

NEUROBEHAVIORAL TOXICOLOGY AND TERATOLOGY

VOLUME 6 NUMBER 2 MARCH/APRIL 1984

CONTENTS

COMMENTARY

Considerations for the design, implementation, and interpretation of animal models of fetal alcohol effects.
RILEY, E. P. and L. S. MEYER 97

Vasopressin fails to restore postnatally the stunted brain development in the Brattleboro rat, but affects water metabolism permanently.
BOER, G. J., R. KRAGTEN, J. KRUISBRINK and D. F. SWAAB 103

Hearing loss in rats first exposed to toluene as weanlings or as young adults.
PRYOR, G. T., J. DICKINSON, E. FEENEY and C. S. REBERT 111

Behavioral toxicological assessment of oral pralidoxime methanesulfonate in the rat.
LIU, W.-F., N.-W. HU and J. M. BEATON 121

Prolonged behavioral effects of early postnatal lead exposure in rhesus monkeys: Fixed-interval responding and interactions with scopolamine and pentobarbital.
MELE, P. C., P. J. BUSHNELL and R. E. BOWMAN 129

Behavioral toxicity of chloral in mice: An approach to evaluation.
KALLMAN, M. J., G. L. KAEMPF and R. L. BALSTER 137

Neurobehavioral testing of chemicals: Impact on recommended standards.
ANGER, W. K. 147

A critical view of the utility of positive controls in a test battery.
TACHIBANA, T. 155

Increased startle responding in rats treated with phencyclidine.
GEYER, M. A., D. S. SEGAL and B. D. GREENBERG 161

n-Propanol induced microcephaly in the neonatal rat.
GRANT, K. A. and H. H. SAMSON 165

Sex and strain differences in the developmental activity profile of rats prenatally exposed to sodium salicylate.
BUELKE-SAM, J., C. A. KIMMEL, C. J. NELSON and P. A. SULLIVAN ... 171

ABSTRACTS: Third Annual Meeting of the Behavioral Toxicology Society 177

ANNOUNCEMENTS 181

NEUROBEHAVIORAL TOXICOLOGY AND TERATOLOGY

VOLUME 6 NUMBER 3 MAY/JUNE 1984

CONTENTS

Hyperresponsiveness to methylphenidate in rats following prenatal ethanol exposure.
MEANS, L. W., C. W. MEDLIN, V. D. HUGHES and S. L. GRAY 187

Effects of trimethyltin chloride on differential-reinforcement-of-low-rate responding.
MASTROPAOLO, J. P., R. J. DACANAY, B. H. LUNA, D. L. TUCK and A. L. RILEY 193

Cellular lesions in the central nervous system of *Periplaneta americana* following insecticide treatment *in vitro* and *in vivo*. I. Nerve cell bodies and the neuropile.
SINGH, G. J. P. and B. SINGH 201

Cellular lesions in the central nervous system of *Periplaneta americana* following insecticide treatment *in vitro* and *in vivo*. II. Glial cells.
SINGH, G. J. P. and B. SINGH 215

Factors affecting toluene-induced ototoxicity in rats.
PRYOR, G. T., C. S. REBERT, J. DICKINSON and E. M. FEENEY 223

Acute behavioral toxicity of the organophosphate sarin in rats.
LANDAUER, M. R. and J. A. ROMANO 239

Tolerance for the decrease in nerve conduction velocity and for the motor impairment produced by ethanol in mice: Differential development during chronic ethanol consumption.
JUNTUNEN, J., T. WIDENIUS, T. E. REED, R. YLIKAHRI, E. MATIKAINEN, M. SARVIHARJU and H. TERÄVÄINEN 245

Behavioural and neurochemical changes in offspring of rats exposed to methyl mercury during gestation.
CUOMO, V., L. AMBROSI, Z. ANNAU, R. CAGIANO, N. BRUNELLO and G. RACAGNI 249

ANNOUNCEMENTS 255

NEUROBEHAVIORAL TOXICOLOGY AND TERATOLOGY

VOLUME 6 NUMBER 4 JULY/AUGUST 1984

CONTENTS

Overview: Developmental effects of drug dependence.
SONDEREGGER, T. and E. ZIMMERMANN 259

Nutritional issues in perinatal alcohol exposure.
WEINBERG, J. 261

Developmental outcome of children born to methadone maintained women: A review of longitudinal studies.
KALTENBACH, K. and L. P. FINNEGAN 271

Maternal nonnarcotic substance abuse during pregnancy: Effects on infant development.
CHASNOFF, I. J., S. H. SCHNOLL, W. J. BURNS and K. BURNS 277

Hypothalamic-pituitary adrenal (HPAA) axis function in adult Fischer-344 rats exposed during development to neurotoxic chemicals perinatally.
ROSECRANS, J. A., J. H. JOHNSON, H. A. TILSON and J. S. HONG 281

Adverse effects of ethanol upon the adult sexual behavior of male rats exposed in utero.
PARKER, S., M. UDANI, J. S. GAVALER and D. H. VAN THIEL 289

Prenatal exposure to drugs of abuse in humans: Effects on placental neurotransmitter receptors.
PERRY, B. D., D. J. PESAVENTO, P. H. KUSSIE, D. C. U'PRICHARD and S. H. SCHNOLL 295

Legal applications and implications for neurotoxin research of the developing organism.
MORRIS, R. A. and T. B. SONDEREGGER 303

Ethanol in preweanling rats with dams: Body temperature unaffected.
KRUCKEBERG, T. W., P. K. GAETANO, E. M. BURNS, H. STIBLER, E. CERVEN and S. BORG 307

Pre- and neonatal exposure to cimetidine but not ranitidine adversely affects adult sexual functioning of male rats.
PARKER, S., M. UDANI, J. S. GAVALER and D. H. VAN THIEL 313

Perinatal exposure to methadone alters sensitivity to drugs in adult rats.
ZAGON, I. S. and P. J. McLAUGHLIN 319

Microcomputer-assisted open field measures of rats given ethanol on postnatal days 1–8.
SONDEREGGER, T. B., A. J. RITCHIE, S. BERNEY-KEY, J. H. FLOWERS and E. G. ZIMMERMANN. 325

ANNOUNCEMENTS 333

NEUROBEHAVIORAL TOXICOLOGY AND TERATOLOGY

VOLUME 6 NUMBER 5 SEPTEMBER/OCTOBER 1984

CONTENTS

Disruption of learned and spontaneous alternation in the rat by trimethyltin: Chronic effects.
JOHNSON, C. T., A. R. DUNN and H. S. SWARTZWELDER 337

Effects of chronic manganese intake on the levels of biogenic amines in rat brain regions.
BONILLA, E. and A. L. N. PRASAD 341

An investigation of prenatal cannabis exposure and minor physical anomalies in a low-risk population.
O'CONNELL, C. M. and P. A. FRIED 345

Effects of chronic exposure to alcohol on the developing brain.
SCHAPIRO, M. B., N. P. ROSMAN and T. L. KEMPER 351

Some aspects of feeding and locomotor activity in adult rats exposed to tetraethyl lead.
CZECH, D. A. and E. HOIUM 357

Neurophysiological effects of 30 day chronic exposure to toluene in rats.
DYER, R. S., K. E. MULLER, R. JANSSEN, C. N. BARTON, W. K. BOYES and V. A. BENIGNUS 363

Trimethyltin reduces recurrent inhibition in rats.
DYER, R. S. and W. K. BOYES 369

Factors affecting the outcome of maternal alcohol exposure: I. Parity.
ABEL, E. L. and B. A. DINTCHEFF 373

Mitotic arrest in the developing CNS after prenatal exposure to methylmercury.
RODIER, P. M., M. ASCHNER and P. R. SAGER 379

Early sensory motor development and prenatal exposure to lead.
BELLINGER, D. C., H. L. NEEDLEMAN, A. LEVITON, C. WATERNAUX, M. B. RABINOWITZ and M. L. NICHOLS 387

ANNOUNCEMENTS 403

NEUROBEHAVIORAL TOXICOLOGY AND TERATOLOGY

VOLUME 6 NUMBER 6 NOVEMBER/DECEMBER 1984

CONTENTS

Commentary

Cross species extrapolation and hazard identification in neurotoxicology.
DYER, R. S. 409

Proceedings of a Conference on Cross Species Extrapolation in Neurotoxicology 413

Neurobehavioral evaluation of function following experimental nerve damage.
DE MEDINACELI, L. and R. J. WYATT 415

Planning experiments relevant to public policy: Peripheral nerve electrical activity.
JEWETT, D. L. 419

Protein III, a neuron-specific phosphoprotein: Variant forms found in human brain.
PERDAHL, E., W. C.-S. WU, M. D. BROWNING, B. WINBLAD and P. GREENGARD 425

Cross-species extrapolation in hydrocarbon neuropathy.
GRAHAM, D. G. and M. R. GOTTFRIED 433

Reflex modification as an objective test for sensory processing following toxicant exposure.
ISON, J. R. 437

Albinism and evoked potentials:
Factors in the selection of infrahuman models in predicting the human response to neurotoxic agents.
CREEL, D. J. 447

Excitotoxic food additives—Relevance of animal studies to human safety.
OLNEY, J. W. 455

The pathology of toxic axonal neuropathy: A clinical-experimental link.
STERMAN, A. B. 463

Animal models of infantile amnesia, benign senescent forgetfulness, and senile dementia.
CAMPBELL, B. A., C. B. SANANES and J. R. GADDY 467

EEG as a cross species indicator of neurotoxicity.
BENIGNUS, V. A. 473

Index to Volume 6 485
